

Testimonial for Frank Fitzgerald-Ryan & Vox Bandicoot

Frank attended our SMEC Urban company conference on 7 May 2010.

As the keynote presenter, Frank provided a highly entertaining session for our staff that successfully mixed the 'urgency' of the Earth's environmental condition, with an inspiring message that invigorated the audience.

Feedback from staff was glowing and many people told me afterwards that Frank was just the right amount of inspiration they needed to reduce their own impact on the environment.

Frank has the ability to find just the right knack of mixing the seriousness of the climate change issue with genuine 'laugh-out-loud' entertainment to engage with the audience and provide a very memorable presentation.

We would recommend Vox Bandicoot to anyone who is looking for something more than just your regular presentation!!
